

Medicare Advantage Cuts Felt in Every Congressional District

Introduction

Medicare Advantage (MA) is a Medicare program in which beneficiaries who choose to do so may receive their Medicare benefits through health insurance plans approved by Medicare and provided by private companies. Most plans include additional benefits as well. Nearly 18 million seniors in America depend on private MA plans for their personal health care and have chosen to purchase the coverage beyond standard Medicare. When the Affordable Care Act (ACA) became law in 2010, it cut \$716 billion from Medicare to fund the new law, including billions of dollars of cuts to the MA program. Now, six years later, seniors across the country are seeing the results of the ACA's cuts to MA. In February, the Obama Administration proposed further MA cuts for seniors in 2017 due to ACA. These cuts result in an annual benefits cut of \$2,976 (or 21.8 percent), when compared with MA projections before ACA. These benefit cuts will be felt by seniors in every Congressional District come 2017.

Methodology

Medicare Advantage payments are determined each year based on "benchmarks" calculated at the county level, from a combination of statutory formulas and regulatory decisions. CMS provides estimates of statutory factors and proposed regulatory decisions each year in a February "Advance Notice," and publishes final county benchmarks in an April "Announcement." Based on 2017 benchmarks, published in the CMS "Announcement" (Call Letter) of April 4, and February 2016 enrollment figures by county and plan type, estimates of the 2017 average payment per enrollee were calculated for each district using county-level estimates made available by American Action Forum. These 2017 rates are weighted averages of CMS-published non-EGWP benchmarks for regular and 4+ star bonus plans, and CMS-published payments to EGWP plans based on the new payment methodology, which involves four combinations of benchmark-plus-rebate amounts based on the star ratings. In all cases, the EGWP payment is lower than the benchmark for non-EGWP plans at the same star rating. Weightings for the averages are based on enrollment figures for Feb. 2016. As such, benchmarks and payment rates for "new" 2017 plans (which have special payment rates) are not included.

Data

State	CD	District Enrollment	Quality and Risk-Adjusted Average Annual Rate for 2017	Pre-ACA Baseline Risk-Adjusted Annual Rate for 2017	Change from Pre-ACA to Post-ACA (dollars)	Change from Pre-ACA to Post-ACA (percent)
