# Skyrocketing Premiums, Limited Access to Care, Higher Taxes & More Government Control...

*The Affordable Care Act Needs to Be Repealed and Replaced.*

## Congressman Don Bacon has a Plan to Deliver Quality, Affordable, Patient-Centered Health Care.

Once Nancy Pelosi and the liberals in Congress passed the Affordable Care Act, Americans found out what was in it:

- ✗ We couldn't keep our plans or even our doctors.
- ✗ Premiums skyrocketed with double digit increases.
- ✗ Health care exchanges collapsed and patients lost their choice of plans.
- ✗ More than a trillion dollars in new taxes, driving up the cost of health care.

It's time for Congress to fulfill its promise by repealing and replacing the Affordable Care Act with a quality, affordable, patient-centered health care plan.

**Call Congressman  
Don Bacon at 202-225-4155.**

**Thank Him for Proposing  
Access to a Quality, Affordable  
Health Care Plan.**

**Urge Him to Repeal and Replace  
the Affordable Care Act Now.**
