The Pelosi Rx Drug Takeover Plan

**Liberals want total government control.
It starts with takeover of your prescription drug benefits.**

IT STOPS WITH YOU

The Liberals' Radical Plan to Bring Socialism to America

Liberals want to lead America where other socialist countries have already gone, imposing new taxes on innovation, crushing the incentives for research and withholding critical medicine from the sickest patients.

This One-Size-Fits-All Plan Will Result In:

- ✗ Prescription Drug Rationing
- ✗ Government Price Fixing
- ✗ Bureaucrats Controlling Access to New Treatments

This government run plan puts millions of Americans at risk and must be stopped.

Congresswoman Jaime Herrera Beutler is Working to Improve Access to Medicine

While the Pelosi-Sanders-AOC team is pushing the nation towards a socialist agenda with more government intrusion into your life, Congresswoman Herrera Beutler is working to protect Medicare from a devastating bureaucratic takeover.

Thank Congresswoman Herrera Beutler for Working to:

- ✓ Protect Access to Medications
- ✓ Preserve a Wide Range of Plans
- ✓ Stop New Taxes on Innovation
